

Appendix F: Environmental Policy Statement

JJ Churchill Ltd (the Company) is aware of the environmental issues relevant to its business and operations. Our aim is to manage our business successfully while maintaining our responsibilities towards the environment and recognising the need to protect the environment. This is maintained through a programme of continuous improvement compliant with the requirements of ISO14001.

- The Company commits to its compliance obligations with all legislation relevant to its operations, and in considering the effect that some manufacturing processes may have on the environment, will seek alternatives that minimise harmful impacts.
- The Company has an active policy to reduce, re-use and recycle with a target to eliminate the need to send any waste to landfill so long as it is economically and practically viable.
- The Company will, whenever technically possible and compliant with customers' requirements, source raw materials from suppliers with the same approach to environmental issues as us.
- The Company is committed to the prevention of pollution and to minimise the impacts of its activities on the environment and will undertake to monitor and control levels thereof.
- The Company will develop its staff training and raise personnel awareness to support its commitment to this policy.

The involvement and commitment of the Management Team ensures that adequate resources and information are available to maintain the objectives set out in this policy. The team are responsible for reviewing the policy and the Management System annually to ensure that they are current and valid to business and environmental needs.
